Ms. Funk reminded those present that MLA has a “Community of Care” website for International messages of sympathy and encouragement, following September 11 and reminded everyone of the availability of the MLA bibliography of bioterrorism.

Ms Funk introduced Mark Funk, Head of Collection Development, Cornell Medical Library and MLA Treasurer. Mr. Funk discussed the growth of MLA Net, MLA’s publishing program, “Virtual MLA” and the MLA Bulletin name change.

Ms. Funk introduced Diana Cunningham, who talked about the recruitment efforts currently underway at MLA: a new career brochure, targeted to High School and College students, a career website, a mentoring initiative, minority recruitment efforts, MLA’s new vision statement “Quality Information for Improved Health” and the MLA change in institutional dues structure (three dues categories versus five).

Ms. Funk talked about MLA’s 2001-2002 theme: “Investing in our Future” and MLA’s advocacy program with press releases planned, bylined articles in journals such as AHA News and Modern Healthcare. There will be an article in Better Homes and Gardens in either November or December of this year.

NLM Greetings
Kent Smith, Deputy Director of NLM, extended greetings from NLM. Mr. Smith reported that the National Institute of Health looks like an armed encampment since September 11, and a visit to NLM is a “different experience” right now. Funding for NLM was accomplished through a military bill, to assure expansion through 2030. Mr. Smith discussed enhancements made in PubMed, MEDLINEplus and the incorporation of a MEDLINEplus listserv. Grateful Med is no longer. In 2002, look for special gene indexing and “Train-the-Trainer” courses in gene indexing and searching. Mr. Smith’s final statement was “the era of big government is back.”
